"I've been in the detailing industry starting with cars and working up to looking after trucks for 35 years and I've never used anything anywhere near as good! Where have you been all these years!!? I am finding I'm using less product (especially with the Purple Power Foam Wash), we're able to get the trucks washed quicker, and we are getting comments about how much more shiny the trucks are looking now compared with what we were using! I'll never use anything else ever again."
